## Introduction

Data Infinity Limited is an Oracle Gold and Redhat Certified Training Partner, and provider of IT Solutions, and Training for various vendor technologies, with a focus on Oracle Technologies. We have been in the business of IT services, implementations, support, and Training since 2011.

Below are some of the technologies we have implemented and provide training of:-

- i. Development of Data Warehouses, Data Marts, and Business Intelligence Systems
- ii. Business Intelligence report creation
- iii. Oracle Database and Operating System Support on Administration and training
- iv. Application Server Environment – Oracle Fusion Middleware Weblogic installation, configuration, and training
- v. Web Servers setup
- vi. Disaster Recovery Solutions – Standby Databases, Data Guard, Oracle Golden Gate management and training
- vii. Centralized Systems Monitoring and Management with Grid/Cloud Control
- viii. Security of Databases & Operating System Network Services – Database Vault and Audit Vault
- ix. Setting up High Availability Systems – Real Application Clusters, Oracle Golden Gate
- x. Performance Tuning
- xi. Quality Training on the above technologies in partnership with vendors

## About us

### Company Structure - Directors

Data Infinity is a Private Limited company run by both Technical and Non-Technical Directors, who have wealth of experience that spans over twenty years in IT services, and Business Administration.

The directors easily complement each other on technical and administrative tasks respectively.

### The Technical Team

We have highly trained, qualified and experienced professional team, who have been involved in successful deployments, and are therefore non-starters in project implementations. They have also trained some of the largest and most prestigious firms in Africa.

## The Team

The team members have worked with a variety of Operating Systems such as SUN / Oracle Solaris, HP-UX, IBM's AIX, Redhat Linux, SuSe Linux Oracle Linux among others. Among the certifications held by our team are:-

- i. Oracle Certified Professional (OCP) DBA
- ii. Oracle Certified Professional (OCP) Applications DBA
- iii. Oracle Certified Expert (OCE) Real Application Clusters (RAC)
- iv. Sun Certified Systems Administrator Solaris Certified Professional (SCSA SCP)
- v. Redhat Certified Technician (RHCT) on Linux 5.1
- vi. Redhat Certified System Administrator (RHCSA) on Linux 6
- vii. Redhat Certified Engineer (RHCE) on Linux 5 & 6
- viii. Certified Network Administrator (CNA) – Novell Netware
- ix. SAP Certified Consultant - Financials
- x. Microsoft Certified Professional (MCP) Product Specialist

## Our Clients

KENYA REVENUE  
AUTHORITY

## Just a thought

On the 7th of August 1998, the US Embassy in Nairobi was bombed. A nearby bank, which happened to be the bank's headquarters, was completely incapacitated for almost 2 weeks. How much would a two week downtime affect your business?

On the 11th of September 2001, the twin towers of World Trade Center in New York were brought down in a related attack. A Stock Company operating in one of the towers was back on its feet 15 minutes after the attack, at another site.

What are your Business' Continuity Strategies? What is your Disaster Recovery Solution?

***We let you relax!***
